The AgriMax is the ideal harvest and Storage Bin for the U.S. Market. Our AgriMax can be used for any number of vegetables and fruits, including but not limited to citrus fruits, peaches, pears, onions, sweet potatoes, and pistachios. The AgriMax has superior venting while maintaining product weight and strength. These vents allow for better airflow to keep the produce fresh for longer (and provide) better control over produce temperature. Also, these enable the AgriMax to drain faster. The rounded edges help minimize product damage. Options are available to accommodate GPS tracking, barcoding, branding and more.

Specifications

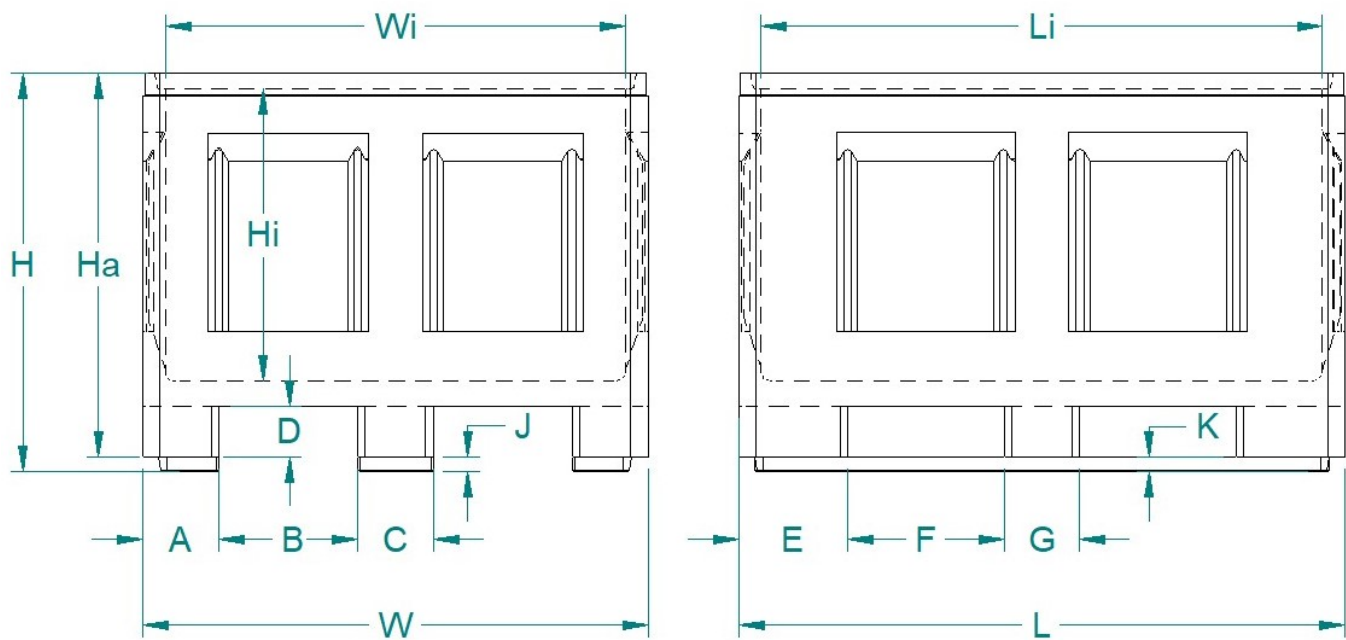

External max length (L):	1212.8 mm
External max width (W):	1212.8 mm
External max height (H):	723.9 mm
Internal min Length (Li):	1127.4 mm
Internal min Width (Wi):	1130.3 mm
Internal Usable Height (Hi):	598.1 mm
Incremental stack height (Ha):	711.9 mm
Net weight kg:	39.64 kg
Weight Tolerance:	+/-5%, unless stated otherwise
Usable Volume:	806 L
Individual Load Capacity:	590 kg
Max Static Load:	5300 kg
Max Dynamic Load:	2520 kg
Racking Load:	590 kg
Main Material:	PP (Polypropylene)
Operational Temperature Range:	-18 °C to 40 °C
UN certified:	No
Pallet Dimension A:	130 mm
Pallet Dimension D:	76.2 mm

Feature and Benefits

- Ideal for Harvest and Storage - The AgriMax is designed for the U.S. market and is suitable for various fruits and vegetables, including citrus fruits, peaches, pears, onions, sweet potatoes, and pistachios.
- Superior Venting - The AgriMax provides excellent venting while maintaining product weight and strength, ensuring better airflow and temperature control for fresh produce.
- Efficient Drainage - The vents on the AgriMax allow for efficient drainage, helping to prevent water buildup and maintain product quality.
- Rounded Edges - Rounded edges minimize product damage during handling and transportation.
- Customization Options - Options are available for GPS tracking, barcoding, branding, and more to enhance tracking and branding capabilities.
